Work Experience

Information Technology Technician

April 2023 - Present

Talley Metal Fabrication, San Jacinto, CA

- Improved IT workflow efficiency by reducing task completion time by 30% through automation
- Research new software, hardware, and implementations to reduce costs by \$7,000
- Mitigated the effects of a ransomware attack by effectively planning and using backups
- Deploy new hardware, including computers, switches, cameras, phones, and printers
- Maintain Microsoft products, such as SharePoint, OneDrive, and Office, and manage licensing

Computer Science Tutor

September 2023 - April 2024

California Baptist University, Riverside, CA

- Facilitated student understanding of efficient Java programming for a course offered on campus
- Provided virtual and in-person tutoring sessions to cater to each student's needs
- Instructed students using visual and verbal aids, allowing them to formulate solutions on their own

Projects

FashDash

September 2024 - April 2025

California Baptist University, Riverside, CA

- Composed an app that provides relevant dress options based on user input and preferences
- Integrated and trained a recognition model to provide accurate products based on relevant information

Server Room Redesign

April 2024 - July 2024

Talley Metal Fabrication, San Jacinto, CA

- Organized a complete server room refresh, ensuring the network experienced minimal downtime
- Coordinated with superiors to effectively plan the task while upgrading the gear and minimizing costs

Big Sister Bot

January 2024 - May 2024

California Baptist University, Riverside, CA

- Implement logic on static screens for a beauty app using a Flutter framework in Dart
- Engineered innovative scripts to populate a Firestore database using scraped data in Python

Volunteer and Leadership Experience

Association for Computing Machinery

April 2023 - April 2025

California Baptist University, Riverside, CA

- Led a group of eight students to compete in the Collegiate Cyber Defence Competition and Hivestorm
- Improved overall competition performance by 40%
- Organized weekly meetings with club members to learn about cybersecurity and networks
- Developed an internal network for students to interact, practice, and experiment

Worship Group Member

June 2017 - Present

Primera Iglesia Bautista de Lakeview, Lakeview, CA

Awards/Honors

Computer and Data Science Award

April 2025

Alpha Chi Honor Society

January 2024

Hispanic Scholarship Fund Scholar

June 2022
